### About Me

Skilled Frontend Developer with 2.5 years of experience in designing, developing and maintaining front-end web applications. Achieved measurable success in increasing page loaded speed by 20% which lead to an increase in website conversion rates. Led the implementation of new front-end development system. I've been consistently learning & improving my skills since I started learning Frontend, now looking for an opportunity to brush my skills on Professional Project.

### Project Experience

- Trello Clone using Next.JS, TailwindCSS, Appwrite.
- Youtube Clone using React Query, API, TS & TailwindCSS.
- Todo App Clone In React & Appwrite with Authentication
- GTA 6 Website in Next.JS using GSAP.
- Chat App in React with Firebase
- Metflix Movie App to search & find info about the movie using API.
- Spotify Music App which play & add your songs to favorite list, plus you have to login using OAuth functionality to search album/song.
- Netflix Landing with React i18next for dual language support mainly Hindi & English.
- Ecommerce store in React with Redux Toolkit & Stripe Checkout Payment Gateway Integration.
- IP Address Tracker using Geolocation API in React.
- React Image File Resizer to compress images.
